Master Program in Geology

Guideline for Seminar I

Students registered for Seminar I course must follow the guideline below:

- 1) Students must submit a Research Proposal, a four-pages review of research articles related to the thesis, and a presentation of research proposal to the Secretary of the Program Committee **at least two weeks prior to the seminar date**. Powerpoint presentation handouts should be prepared 4 slides per page. All documents must be submitted in one hard copy and one digital file (PDF format), and signed by the research supervisor.
- 2) The presentation time is approximately 20 minutes followed by a Question and Answer (Q&A) session for up to 20 minutes.
- 3) The Program Committees serves to evaluate students' performance and determine a "Satisfied" or "Unsatisfied" grade for students. Students will be informed their grades within one week after the Seminar. Decisions by the Program Committee are final and are not subjected to further review.

This guideline is effective as of December 1st, 2016

Announcement
Doctoral and Master Programs in Geology
Guideline for Participation in Seminar Courses

Students registered to any Seminar course must attend the Seminar at least 80% of the total seminar class. Students who do not meet this requirement will be considered “Unsatisfied” in the Seminar course. Under a specific circumstance, students may write a letter to the committee of the Program to ask for an approval of class absence. In addition, Students registered to the Thesis and Dissertation Courses are highly recommended to attend the Seminar.

This announcement is effective as of December 1st, 2016
